QIWI Announces Third Quarter 2017 Financial Results

*Third Quarter Total Adjusted Net Revenue Increases 22% to RUB 3,238 Million and Adjusted Net Profit Decreases 16% to RUB 1,064 Million or RUB 17.38 per diluted share
QIWI upgrades 2017 Guidance*

NICOSIA, CYPRUS – November 16, 2017 – QIWI plc (NASDAQ: QIWI) (MOEX: QIWI) (“QIWI” or the “Company”) today announced results for the third quarter ended September 30, 2017.

Third Quarter 2017 Operating and Financial Highlights

- Total Adjusted Net Revenue increased 22% to RUB 3,238 million (\$55.8 million)
- Adjusted EBITDA decreased 21% to RUB 1,325 million (\$22.8 million)
- Adjusted Net Profit decreased 16% to RUB 1,064 million (\$18.3 million), or RUB 17.38 per diluted share
- Adjusted Net Profit excluding the effect of SOVEST project increased 32% to RUB 1,681 million (\$29.0 million), or RUB 27.46 per diluted share
- Total payment volume increased 8% to RUB 235.9 billion (\$4.1 billion)

“Today I’m glad to share our third quarter 2017 results and highlight that the dynamics in our core markets and the secular trends towards digitalization of payments that we have noticed earlier this year continue to support our core business,” said Sergey Solonin, QIWI’s chief executive officer. “We achieved strong financial results in our core business this quarter and increased our total adjusted net revenue while continuing to invest in our new business lines and projects. This quarter we have also acquired, subject to the review of the temporary administration of Otkritie Bank, certain assets and focused on developing a strategy for building wider digital infrastructure and enriching our product offering. We see many opportunities ahead and will continue to focus on executing our strategy and developing our new initiatives.”

Third Quarter 2017 Results

Revenues: Total Adjusted Net Revenue for the quarter ended September 30, 2017 was RUB 3,238 million (\$55.8 million), an increase of 22% compared with RUB 2,662 million in the prior year.

Payment Adjusted Net Revenue was RUB 2,661 million (\$45.9 million), an increase of 26% compared with RUB 2,105 million in the prior year. Payment Adjusted Net Revenue growth was predominantly driven by a volume growth in the Money Remittance and E-commerce market verticals as well as by an improvement in yields in E-commerce market vertical resulting from the shift in the product mix. Growth was partially offset by a decrease in payment volumes in the Financial Services and Telecom market verticals.

Other Adjusted Net Revenue, which is principally composed of revenue from fees for inactive accounts and unclaimed payments, interest revenue, SOVEST net revenue, revenue from overdrafts provided to

agents, rent of space for kiosks, cash and settlement services and advertising, was RUB 577 million (\$9.9 million), an increase of 4% compared with RUB 557 million in the prior year. Other Adjusted Net Revenue increase in the third quarter was mainly due to the increase in interest revenue and net revenue from the SOVEST project¹.

Total Adjusted Net Revenue excluding contribution of the SOVEST project increased by 20% compared with the same period in the prior year.

Fees for inactive accounts and unclaimed payments for the third quarter ended September 30, 2017 were RUB 342 million (\$5.9 million) compared with RUB 348 million for the corresponding period in the prior year. Other Adjusted Net Revenue excluding revenue from fees for inactive accounts and unclaimed payments increased 12% compared with the same period in the prior year.

Total Adjusted Net Revenue excluding revenue from fees for inactive accounts and unclaimed payments increased 25% compared with the same period in the prior year.

Adjusted EBITDA: For the quarter ended September 30, 2017, Adjusted EBITDA was RUB 1,325 million (\$22.8 million), a decrease of 21% compared with RUB 1,669 million in the prior year. Adjusted EBITDA decrease was largely driven by growth of SG&A expense due to increase in advertising expenses to RUB 413 million for the quarter ended September 30, 2017 as compared to RUB 53 million for same period in the prior year related to SOVEST project, increase in personnel expenses (excluding effect of share based payments) to RUB 455 million for the quarter ended September 30, 2017 as compared to RUB 348 million for same period in the prior year, tax and bad debt expenses also related to the launch of the SOVEST project and office maintenance expense partially offset by an increase in Adjusted Net Revenue. Adjusted EBITDA margin (Adjusted EBITDA as a percentage of Total Adjusted Net Revenue) was 40.9% for the quarter ended September 30, 2017 compared with 62.7% for the same period in the prior year. Adjusted EBITDA excluding fees for inactive accounts and unclaimed payments was RUB 983 million (\$16.9 million), a decrease of 26% compared with RUB 1,321 million for the corresponding period in the prior year. Adjusted EBITDA margin excluding fees for inactive accounts and unclaimed payments was 34.0% compared with 57.1% in the prior year.

Adjusted Net Profit: For the quarter ended September 30, 2017, Adjusted Net Profit was RUB 1,064 million (\$18.3 million), a decrease of 16% compared with RUB 1,271 million in the prior year. The decrease in Adjusted Net Profit was primarily driven by the same factors impacting Adjusted EBITDA. Adjusted Net Profit excluding fees for inactive accounts and unclaimed payments (net of tax) decreased 20% compared with the prior year. The Adjusted Net Profit excluding net loss associated with the SOVEST project¹ in the third quarter was RUB 1,681 million representing an increase of 32% as compared with the same period of prior year.

Other Operating Data: For the quarter ended September 30, 2017, total payment volume was RUB 235.9 billion (\$4.1 billion), an increase of 8% compared with RUB 218.1 billion in the prior year. Dynamics of payment volume was driven by mixed trends across market verticals with growth in Money Remittances market vertical resulting largely from secular growth in digital money remittances including card to card and peer-to-peer transfers and E-commerce market vertical offset by declining volumes across Financial Services and Telecom market verticals. Payment average adjusted net revenue yield was 1.13%, an increase of 16 bps compared with 0.97% in the prior year primarily due to the higher average net revenue yield in the E-commerce market vertical.

¹ The methodology of segmentation and allocation of Revenues, Costs and Selling, General and Administrative Expenses between QIWI core business and SOVEST project is currently being developed and is subject to further reviews; thus, we retain the right to review the methodology of Revenues, Costs and Selling, General and Administrative Expenses allocation between QIWI core business and SOVEST project and restate the corresponding data to incorporate such adjustments.

Other adjusted net revenue for the quarter ended September 30, 2017 includes RUB 51 million gain from SOVEST project due to the change in the methodology of Costs and Selling, General and Administrative Expenses allocation for the project. SOVEST Net loss calculated based on revised methodology for the quarter ended June 30, 2017 and September 30, 2017 was RUB 13 million and RUB 9 million correspondingly.

Total average adjusted Net Revenue Yield was 1.37%, an increase of 15 bps as compared with 1.22% in the prior year. Total average adjusted Net Revenue Yield excluding the effect of fees for inactive accounts and unclaimed payments was 1.23%, an increase of 17 bps as compared with the same period in the prior year.

SOVEST: For the quarter ended September 30, 2017, total payment volume of the project was RUB 878.8 million (\$15.1 million).

Recent Developments

Pre-payment of assets of Tochka and Rocketbank: In August 2017, we have executed a series of transactions to acquire the brands, software and hardware of Tochka, a digital bank focused on offering a broad range of services to small and medium businesses and Rocketbank, a digital banking service offering debit cards and deposits to retail customers, from Otkritie Bank. We have also entered into certain operational agreements with Otkritie bank in connection with these transactions.

Currently as part of the standard resolution procedures, all transactions and agreements are under review of the temporary administration appointed to Otkritie Bank by the Central Bank of Russia.

Dividend: Throughout 2017, we have been heavily investing in our new project SOVEST and we anticipate that we will continue to bear significant costs related to SOVEST project and certain other projects that we are developing now or plan to develop in the future. Thus, our Board of Directors have taken a decision to refrain from paying dividends. We expect that throughout the next twelve months we will concentrate on investing into our future growth. While long-term we remain committed to distributing all excess cash to our shareholders, the commencement of dividend distribution within this timeframe is unlikely.

2017 Guidance²

QIWI upgrades its guidance in respect of 2017 outlook:

- Total Adjusted Net Revenue is expected to increase by 12% to 16% over 2016; We expect no material contribution to Total Adjusted Net Revenue from SOVEST project, Tochka and Rocketbank.
- Adjusted Net Profit excluding SOVEST, Tochka and Rocketbank expenses is expected to increase by 30% to 40% over 2016;
- Adjusted Net Profit including SOVEST, Tochka and Rocketbank expenses is expected to decline by 17% to 27% over 2016.

 - (2) Payment revenue primarily consists of the merchant and consumer fees charged for the payment transactions.
 - (3) Cost of payment revenue (exclusive of depreciation and amortization) primarily consists of transaction costs to acquire payments from our customers payable to agents, mobile operators, international payment systems and other parties.
 - (4) The Company does not record the compensation to employees and related taxes within cost of revenue separately for payment revenue and other revenue; therefore, it has been allocated between payment revenue and other revenue in proportion to the relevant revenue amounts for the purposes of the reconciliation presented above.
 - (5) Other Revenue primarily consists of revenue from fees for inactive accounts and unclaimed payments, interest revenue, revenue from SOVEST project, revenue from overdrafts provided to agents, rent of space for kiosks, cash and settlement services and advertising.
 - (6) Cost of other revenue (exclusive of depreciation and amortization) primarily consists of direct costs associated with other revenue and other costs, including but not limited to: compensation to employees and related taxes allocated to other revenue and costs of call-centers and advertising commissions.
 - (7) Amortization of fair value adjustments primarily includes the effect of the acquisition of control in Contact and Rapida.
 - (8) The Forex loss on SPO funds as presented in the reconciliation of Net Profit to Adjusted Net Profit differs from the Foreign exchange loss and Foreign exchange gain in the reconciliation of Net Profit to Adjusted EBITDA as the latter includes all the foreign exchange losses/(gains) for the period, while the former only include the foreign exchange loss/(gain) on the US dollar amount, which we received at SPO.

- (1) Payment volumes, payment adjusted net revenue by vertical and payment average net revenue yields presented for the respective period in 2016 differ from the data previously published, including as presented in our quarterly earnings releases, and reflect adjustments made to the methodology of payment volumes and payment adjusted net revenues recognition and allocation between market verticals including the following changes: (i) adjustment to methodology in QIWI Kazakhstan to conform with the methodology used in QIWI's Russian operations and corresponding reallocation of Kazakhstan payment volumes and payment adjusted net revenues to appropriate market verticals; (ii) adjustment to methodology of revenue and cost allocation between categories and corresponding reallocation of certain commissions and costs between market verticals; (iii) change in methodology of accounting for transactions in foreign currencies and corresponding revaluation of certain volumes, costs and revenues; (iv) change in methodology of Contact and Rapida volume recognition in ongoing effort to bring methodology in line with QIWI's processes and procedures (see also Note (4) below). The adjustments made increased total volumes for the period starting July 1, 2016 to September 30, 2016 by RUB 3.6 billion and affected the allocation of payment adjusted net revenue between market verticals. The updated methodology is applied starting fourth quarter 2016 with all previous data revised retrospectively.
 - (2) Calculated using a ruble to U.S. dollar exchange rate of RUB 58.0169 to U.S. \$1.00, which was the official exchange rate quoted by the Central Bank of the Russian Federation as of September 30, 2017.
 - (3) Payment volume by market verticals and consolidated payment volume consist of the amounts paid by our customers to merchants or other customers included in each of those market verticals less intra-group eliminations. The methodology of payment volumes allocation between different market verticals in Contact and Rapida may differ from the methodology used by QIWI. We therefore retain the right to restate the presented volumes, net revenues and net revenue yields data in case the methodology of Contact and Rapida will be brought in conformity with the methodology used by QIWI.
 - (4) In 2016 we introduced consumer commissions for certain types of P2P (wallet to wallet) transactions including cross currency transactions and transactions above certain limits. Corresponding volumes and payment adjusted net revenues are accounted for in our Money Remittances market vertical and amounted to RUB 12.6 billion and RUB 150 million respectively for the quarter ended September 30, 2017.
 - (5) Payment Adjusted Net Revenue is calculated as the difference between Payment Revenue and Cost of payment revenue (excluding D&A) plus compensation to employees and related taxes allocated to payment revenue. Payment Revenue primarily consists of merchant and consumer fees. Cost of payment revenue primarily consists of commission to agents.
 - (6) We measure the numbers of our kiosks and terminals on a daily basis, with only those kiosks and terminals being taken into calculation through which at least one payment has been processed during the day, which we refer to as active kiosks and terminals. The period end numbers of our kiosks and terminals are calculated as an average of the amount of active kiosks and terminals for the last 30 days of the respective reporting period.
 - (7) Active Visa Qiwi Wallet accounts calculated on a yearly basis, i.e. an active account is an account that had at least one transaction within the last 12 months from the reporting date.
 - (8) Total payment volume (million) consist of the amounts paid by our customers using SOVEST card to the partner merchants.
