QIWI gives 2016 Guidance

Board of Directors Approves Dividend of 50 cents per share

NICOSIA, CYPRUS – March 15, 2016 – QIWI plc, (NASDAQ: QIWI) (MOEX: QIWI) (“QIWI” or the “Company”) today announced results for the fourth quarter and year ended December 31, 2015.

Fourth Quarter 2015 Operating and Financial Highlights

- Total Adjusted Net Revenue increased 8% to RUB 2,659 million (\$36.5 million)
- Adjusted EBITDA increased 34% to RUB 1,217 million (\$16.7 million)
- Adjusted Net Profit increased 44% to RUB 860 million (\$11.8 million), or RUB 14.22 per diluted share
- Total payment volume increased 37% to RUB 239.5 billion (\$3.3 billion)

Full-Year 2015 Operating and Financial Highlights

- Total Adjusted Net Revenue increased 16% to RUB 10,228 million (\$140.3 million)
- Adjusted EBITDA increased 17% to RUB 5,640 million (\$77.4 million)
- Adjusted Net Profit increased 18% to RUB 4,142 million (\$56.8 million), or RUB 71.46 per diluted share
- Total payment volume increased 35% to RUB 872.6 billion (\$12.0 billion)
- Visa QIWI Wallet active accounts decreased 6% to 16.1 million

“In the fourth quarter we continued to see the pressure from both the macroeconomic slowdown in Russia resulting in weaker consumer finance market and lower demand for money remittance services due to shifting migration trends, and stricter regulation of the agents network,” said Sergey Solonin, QIWI’s chief executive officer. “Notwithstanding the challenging market and regulatory environment, we maintain high levels of operating leverage and have kept our costs under control. Although we believe that 2016 will be challenging, we are focusing on increasing the loyalty of both our consumers and merchants by offering them a broader scope of services and gaining market share in the key verticals.”

Fourth Quarter 2015 Results

Revenues: Total Adjusted Net Revenue for the quarter ended December 31, 2015 was RUB 2,659 million (\$36.5 million), an increase of 8% compared with RUB 2,468 million in the prior year.

Payment Adjusted Net Revenue was RUB 1,971 million (\$27.0 million), an increase of 7% compared with RUB 1,838 million in the prior year. Payment Adjusted Net Revenue growth was predominantly driven by an increase in payment volume across most verticals except Telecom, especially the E-commerce and Money Remittances market verticals, that was in turn partially offset by the declining net revenue yields primarily as a result of the acquisition and consolidation of Contact and Rapida which operate on significantly lower net revenue yields than legacy QIWI business.

Other Adjusted Net Revenue, which is principally composed of revenue from inactivity fees, interest revenue and gain from currency swaps and overdrafts provided to agents, revenue from rent of space for kiosks and sale of kiosks, cash and settlement services and advertising, was RUB 688 million (\$9.4 million), an increase of 9% compared with RUB 630 million in the prior year. The growth in the fourth quarter was mainly due to increase in inactivity fees and revenue from advertising offset by decline in cash and settlement services and revenue from rent of space of kiosks. Inactivity fees for the fourth quarter were RUB 397 million (\$5.4 million) compared with RUB 183 million in the prior year as a result of changes to the write-off policy as well as consolidation of Contact and Rapida business. Other Adjusted Net Revenue excluding revenue from fees for inactive accounts decreased 35% compared with the same period in the prior year.

Total Adjusted Net Revenue excluding revenue from fees for inactive accounts decreased 1% compared with the same period in the prior year.

Adjusted EBITDA: For the quarter ended December 31, 2015, Adjusted EBITDA was RUB 1,217 million (\$16.7 million), an increase of 34% compared with RUB 911 million in the prior year. Adjusted EBITDA growth resulted mainly from lower marketing spend as compared to a prior year and efficient cost control, although the growth was offset by increase in bad debt expense from RUB 95 million in 2014 to RUB 288 in 2015 due to an increase in reserves for receivables from several of QIWI's agents who have shown signs of financial instability. Adjusted EBITDA margin (Adjusted EBITDA as a percentage of Total Adjusted Net Revenue) was 45.8% compared with 36.9% in the prior year. Adjusted EBITDA excluding inactivity fees was RUB 820 million (\$11.2 million), an increase of 13% compared with RUB 727 million in the prior year. Adjusted EBITDA margin excluding inactivity fees was 36.3% compared with 31.8% in the prior year.

Adjusted Net Profit: For the quarter ended December 31, 2015, Adjusted Net Profit was RUB 860 million (\$11.8 million), an increase of 44% compared with RUB 597 million in the prior year. The increase in Adjusted Net Profit was primarily driven by the same factors impacting Adjusted EBITDA. Adjusted Net Profit excluding inactivity fees (net of tax) increased 20% compared with the prior year.

Other Operating Data: For the quarter ended December 31, 2015, total payment volume was RUB 239.5 billion (\$3.3 billion), an increase of 37% compared with RUB 175.2 billion in the prior year. Payment volume increased across most verticals driven largely by Contact and Rapida businesses consolidation. Payment average net revenue yield was 0.82%, a decrease of 23 bps compared with 1.05% in the prior year primarily due to the consolidation of lower yielding Contact and Rapida businesses.

Total average Net Revenue Yield was 1.11%, a decrease of 30 bps as compared with 1.41% in the prior year. Total average Net Revenue Yield excluding the effect of inactivity fees was 0.94%, a decrease of 36 bps as compared with the same period in the prior year.

Full-Year 2015 Results

Revenues: Total Adjusted Net Revenue for the year ended December 31, 2015 was RUB 10,228 million (\$140.3 million), an increase of 16% compared with RUB 8,836 million in the prior year.

Payment Adjusted Net Revenue was RUB 7,522 million (\$103.2 million), an increase of 15% compared with RUB 6,515 million in the prior year. Payment Adjusted Net Revenue growth was predominantly driven by an increase in payment volume across all verticals especially the E-commerce and Money Remittances market verticals, that was in turn partially offset by the declining net revenue yields primarily as a result of the acquisition and consolidation of Contact and Rapida which operate on significantly lower net revenue yields than legacy QIWI business.

Other Adjusted Net Revenue was RUB 2,706 million (\$37.1 million), an increase of 17% compared with RUB 2,321 million in the prior year. Revenue from fees for inactive accounts was RUB 1,113 million (\$15.3 million) in 2015 compared to RUB 656 million in the prior year due to the same reasons discussed for the fourth quarter. Other Adjusted Net Revenue excluding revenue from fees for inactive accounts decreased 4% compared with the same period in the prior year.

Total Adjusted Net Revenue excluding revenue from fees for inactive accounts increased 11% compared with the same period in the prior year.

Adjusted EBITDA: For the year ended December 31, 2015, Adjusted EBITDA was RUB 5,640 million (\$77.4 million), an increase of 17% compared with RUB 4,818 million in the prior year. Adjusted EBITDA growth was mainly driven by revenue growth and operating leverage in the business. Adjusted EBITDA margin (Adjusted EBITDA as a percentage of Total Adjusted Net Revenue) was 55.1% compared with 54.5% in the prior year. Adjusted EBITDA excluding inactivity fees was RUB 4,528 million (\$62.1 million), an increase of 9% compared with RUB 4,161 million in the prior year. Adjusted EBITDA margin excluding inactivity fees was 49.7% compared with 51.0% in the prior year.

Adjusted Net Profit: For the year ended December 31, 2015, Adjusted Net Profit was RUB 4,142 million (\$56.8 million), an increase of 18% compared with RUB 3,496 million in the prior year. The increase in Adjusted Net Profit was primarily driven by the same factors impacting Adjusted EBITDA. Adjusted Net Profit excluding inactivity fees (net of tax) increased 9% compared with the prior year.

Other Operating Data: For the year ended December 31, 2015, total payment volume was RUB 872.6 billion (\$12.0 billion), an increase of 35% compared with RUB 645.4 billion in the prior year. Payment volume increased across all verticals driven largely by consolidation of Contact and Rapida businesses as well as organic growth in E-commerce and Money Remittance market verticals. Average payment net revenue yield was 0.86%, a decrease of 15 bps compared with 1.01% in the prior year primarily due to the consolidation of lower yielding Contact and Rapida businesses.

The total average Net Revenue Yield was 1.17%, a decrease of 20 bps as compared with 1.37% in the prior year. The total average Net Revenue Yield excluding the effect of inactivity fees was 1.04%, a decrease of 23 bps as compared with the same period in the prior year.

The number of active kiosks and terminals was 172,269 (including approximately 25,000 additional Contact and Rapida physical points of service which are located in retail stores and bank branches across Russia and the CIS), a decrease of 5% compared with the prior year, primarily resulting from enhanced controls that the Central Bank of Russia has implemented over the agents. The number of active Visa Qiwi Wallet accounts was 16.1 million as of the end of 2015, a decrease of 1.1 million, or 6%, as compared with 17.2 million in 2014. The decrease was driven mainly by the lower marketing spend in 2015 as compared to 2014, as well as the decrease in the kiosk network in Russia in the second half of 2015 and overall economic downturn affecting consumer activity.

Recent Developments

Dividend: Following the determination of fourth quarter 2015 financial results and given that there are currently no potential M&A opportunities which require a significant capital allocation, our Board of Directors recommended a dividend of USD50 cents per share. The dividend record date is March 29, 2016, and the Company intends to pay the dividend on March 31, 2016. The holders of ADSs will receive the dividend shortly thereafter.

We continue to pursue certain M&A targets, thus our view on dividends distribution throughout 2016 is subject to change.

Impact of Contact and Rapida: Starting June 1st 2015 we consolidate financial results of Contact and Rapida in our financial statements which are presented in the Annex below. Contact and Rapida have become a strong addition to the core business of QIWI contributing to Money Remittance, Financial Services and E-commerce market verticals as well as significantly increasing our share of the Russian money remittance market, broadening our merchant relationships and consumer base and strengthening our team. The integration is going in accordance with the plan.

Regulation by the Central Bank of Russia: Our kiosk network in Russia was affected by the enhanced controls that the Central Bank of Russia has implemented to ensure compliance by the agents with legislation that requires them to remit their proceeds to special accounts, as disclosed in our Form 6-K filed on November 2, 2015.

Although through reducing the size of our network, this adversely affects the availability and convenience of our services to consumers in the short-term, we continue to believe that increased transparency in the kiosk market will ultimately allow us to improve our market share and strengthen our competitive advantages.

2016 Guidance¹

QIWI provides its guidance in respect of 2016 outlook:

- Total Adjusted Net Revenue is expected to increase by 5% to 8% over 2015
- Adjusted Net Profit is expected to increase by 7% to 12% over 2015

The overall macroeconomic conditions continue to adversely affect the purchasing power of Russian population as high inflation combined with decreasing real wages put pressure on the disposable income. This in turn leads to the overall decrease in consumer spending and consequently our payment volumes, especially in Financial Services market vertical, which is impacted by several factors including lack of refinancing options for the consumers, and aforementioned decrease in real disposable income.

We have also noted negative trends in Money Remittance market due to shifting migration trends. We anticipate that downward trends and weaker demand for money remittance services can negatively affect our volumes and revenues in this category.

Non-IFRS Financial Measures and Supplemental Financial Information

This release presents Total Adjusted Net Revenue, Payment Adjusted Net Revenue, Other Adjusted Net Revenue, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Profit and Adjusted Net Profit per share, which are non-IFRS financial measures. You should not consider these non-IFRS financial measures as substitutes for or superior to revenue, in the case of Total Adjusted Net Revenue, Payment Adjusted Net Revenue and Other Adjusted Net Revenue; Net Profit, in the case of Adjusted EBITDA; and Adjusted Net Profit, or earnings per share, in the case of Adjusted Net Profit per share, each prepared in accordance with IFRS. Furthermore, because these non-IFRS financial measures are not determined in accordance with IFRS, they are susceptible to varying calculations and may not be comparable to other similarly titled measures presented by other companies. QIWI encourages investors and others to review our financial information in its entirety and not rely on a single financial measure. For more information regarding Total Adjusted Net Revenue, Payment Adjusted Net Revenue, Other Adjusted Net Revenue, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Profit, and Adjusted Net Profit per share, including a quantitative reconciliation of Total Adjusted Net Revenue, Payment Adjusted Net Revenue, Other Adjusted Net Revenue, Adjusted EBITDA and Adjusted Net Profit to the most directly comparable IFRS financial performance measure, which is revenue in the case of Total Adjusted Net Revenue, payment revenue in the case of Payment Adjusted Net Revenue, other revenue in the case of Other Adjusted Net Revenue and net profit in the case of Adjusted EBITDA and Adjusted Net Profit, see Reconciliation of IFRS to Non-IFRS Operating Results in this earnings release.

Payment Adjusted Net Revenue is the Adjusted Net Revenue consisting of the merchant and consumer fees collected for the payment transactions. E-commerce payment adjusted net revenue consists of fees charged to customers and merchants that buy and sell products and services online, including online games, social networks, online stores, game developers, software producers, coupon websites, tickets and numerous other merchants. Financial Services payment adjusted net revenue primarily consists of fees charged for payments accepted on behalf of our bank partners and microfinance companies. Money Remittances payment adjusted net revenue primarily consists of fees charged for transferring funds via money remittance companies. Telecom payment adjusted net revenue primarily consists of fees charged for payments to MNOs, internet services providers and pay television providers. Other payment adjusted net revenue consists of consumer and merchant fees charged for a variety of payments including multi-level-marketing, utility bills, government payments, education services and many others. Other Adjusted Net Revenue primarily consists of revenue from inactivity fees, interest revenue and gain from currency swaps and overdrafts provided to agents, revenue from rent of space for kiosks and sale of kiosks, cash and settlement services and advertising.

 - (2) Payment revenue primarily consists of the merchant and consumer fees charged for the payment transactions.
 - (3) Cost of payment revenue (exclusive of depreciation and amortization) primarily consists of transaction costs to acquire payments from our customers payable to agents, mobile operators, international payment systems and other parties.
 - (4) The Company does not record the compensation to employees and related taxes within cost of revenue separately for payment revenue and other revenue, therefore it has been allocated between payment revenue and other revenue in proportion to the relevant revenue amounts for the purposes of the reconciliation presented above.
 - (5) Other revenue primarily consists of revenue from inactivity fees, interest on deposits and on overdrafts provided to agents, cash and settlement services and advertising.
 - (6) Cost of other revenue (exclusive of depreciation and amortization) primarily consists of direct costs associated with other revenue and other costs, including but not limited to: compensation to employees and related taxes allocated to other revenue, costs of call-centers and advertising commissions.
 - (7) Amortization of fair value adjustments includes the effect of the acquisition of control in Contact and Rapida.
 - (8) The Forex gain on SPO funds as presented in the reconciliation of Net Profit to Adjusted Net Profit differs from the Foreign exchange loss/(gain), net in the reconciliation of Net Profit to Adjusted EBITDA as the latter includes all the foreign exchange losses/(gains) for the period, while the former only include the foreign exchange gain on the US dollar amount, which we received at SPO.
